

CAMP X

FROM KEMP

Proposal Full
Jewell

14 July 1959

Major Harold F. Weinberg
Ballistic Missile Division USAF
Building No. 2
Arbor Vitae Street
Los Angeles, California

Dear Sir:

In response to your verbal request during the meeting of 2 July 1959, with representatives of the Strategic Air Command, AFSCIN, HQ. USAF, and Ittek Corporation the attached proposal is submitted for your consideration.

Included in this proposal are the pertinent items discussed by Col. Krause regarding the training requirements and programming needs to accomplish integration of the Ittek Viewers with existing equipment.

Our enclosed estimated Cost Schedule I which covers the fabrication of five (5) mensuration viewers does not include the cost of design and engineering which was previously quoted to another customer. In order to share the cost of this design and engineering you must add to each viewer a total of \$2915.71. This information is given only as a guide for the purpose of your funding. I might further point out that the estimated costs on Schedule I are based on our existing contract with our other customer and the prices quoted are based on our costed association.

Our estimated costs on Schedule I through Schedule VI are also based upon the following conditions:

1. Issuance of a cost-plus-fixed-fee contract.
2. Inspection and acceptance of equipment at contractors plant.
3. Delivery of equipment FOB contractors plant.
4. Handbooks will be prepared in accordance with acceptable commercial standards and will be delivered 45 days after delivery of equipment.
5. Authorization for use on a no charge basis facilities at contractors plant covered by Air Force Facilities Contract AF33(600)38172.
6. The equipment will be designed and fabricated to contractor specifications.
7. The programming service contemplates the use of a maximum of five (5) people over a nine (9) month duration running concurrent with the effort on the maximum capability mensuration viewers.
